Sako Actions
 Sako rifles are unique in that they are made in three different actions. Each action is customized to fit a specific set of individual needs and is used for a specific range of cartridges. As a result, every Sako delivers better handling, faster swing and less fatigue.

Sako "Original" Scope Mounts
 Throughout the years, Sako Scope Mounts have enjoyed the reputation of being the world's best. However, that did not satisfy Sako. Therefore, they commissioned their designers and engineers to develop an improved version that offers even more benefits to the shooter.

Sako Scope Mounts
 Sako's patented scope mounts are for those who prefer a more traditional system. These fully machined steel scope mounts offer a tremendous adjustment and a highly polished finish. They are also designed to be easily integrated into the Sako receiver, which provides for a smooth and repeatable mounting system.
